Position Available: Commercial Interior Designer

Duties:

Advise clients on interior design factors, such as space planning, layout and utilization of furnishings and equipment, color schemes, and color coordination. Develop conceptual understanding of retail/consumer projects and branding. Create and articulate design ideas as they relate to projects in form of paste-ups, drawings, or illustrations, using CAD and other computer programs. Plan, design, and furnish interior environments of residential, commercial, and industrial buildings. Confer with clients to determine design preferences, purpose and function of the environment, budget, types of construction, equipment to be installed, and other factors which affect planning interior environments. Integrate findings with knowledge of interior design and formulate environmental plan to be practical, aesthetic and conducive. Estimate material requirements and costs. Present design to Project Manager and clients for approval and revisions, as necessary. Work in support of the interiors studio to assist as needed on studio issues or design projects. Assemble comprehensive construction documents and interior specifications.

Requirements: Bachelor's in Interior Design or Interior Architecture required.
